The Shore Batteries at Port Arthur Opened Fire on Japanese Torpedo Boats.

Later the Japanese Began Firing Upon the Russian Cruisers and the Fortress at Long Range.

They Had 14 Ships and Fired the Entire Time From Behind Liao Tishin-No Damage Is Reported to Russians,

St. Petersburg, March 11.-The czar has received the following message from Viceroy Alexieff, dated Mukden, March 10:

"The commandant of the fortress at Port Arthur reports that about 1 o'cleck this merning the outlines of vessels, apparently torpedo boats, were seen at sea, within the area swept by our searchlights. Our batteries opened fire upon these vessels. Our terpede beats put out to sea at 2140 a. m. and at about 4 o'cleck met the enemy west of the Liao Tisbin lighthouse. After firing several sbots the enemy retired to the south in the direction of Shan Dun. Our terpede boats returned to the barber at 6 o'clock.

"Later torpede boats were again sent to reconneiter. They returned in half an hour, having learned that the enemy's squadron was approaching.

"At 8 o'clock the Japanese opened fire upon our cruisers and the fortress. The enemy had 14 ships and fired the entire time from behind Liae Tishin

Tokio, March 11.-The report of Vice Adm. Kamimura, in command of the Vladivostok naval expedition, reached the navy department here early Thursday morning. It evidently came by way of Gensan, where tho squadron was expected to call upon its return. The report throws little additional light upon the movement, except it seems to show that the Russian squadren remained safely within Viadivostok harbor under the proteetion of the shore batteries. Adm. Kamimura says that he bembarded the harbor for 45 minutes and believes the fire was very effective. At 5 o'eloek on Sunday last the Japanese discerned heavy volumes of smoke ascending over the eastern mouth of the harber and it was thought for a timo that the Russians were getting steam up to come out and give battle, which was eagerly awaited, but the smoke gradually died away with no appearance of any of the Russian ships. The Japanese ships searched the surrounding bays until noon on Monday, when they again steamed back to the eastern entrance of Vladivostok harber. The forts there did not fire at the approaching ships and no trace was found of the Russian squadron. Adm. Kamimura then steamed south, reconnoitering Possiet bay and other iniets at that vicinity, but found no trace of the Russians. Adm. Kamimura does not montion in his report anything ceneerning Russian operations in the vicinity of Possiet bay or the Tumen

Negro Who Was Urging the Blacks to Avenge the Lynching of Dixon Was Arrested.

Whole Families of Negroes Are Still Fieeing and Scores of Undesirable Characters Have Left the the City For Good.

Springfield, O., March 11.-The race disturbances which have terrorized the town for the last three days as the result of the murder of Patrolman Collis and the subsequent lynching of the Negro Dixon, who shot Cellis, is held well in check by the 18 companies of state militia and the authorities are of the opinion that no mere troops will be needed to control the situa-

There are unmistakable signs that there is an ugly feeling on the part of the men and boys who have composed the mobs of the last three days and the authorities realize that at the least preveeation trouble might break out again. The burning of a portion of the levee has only partially satisfied the mob, which was thwarted by the militia in its attempt to burn Flickers Nest, a row of buildings formerly occupied by about 50 families but now completely deserted.

Thursday evening the police arrested a Negro, elaiming Cineinnati as his home and giving the name of Y. W. Smith. He was accompanied by several strange Negroes, and wherever they could gain an audience of one or more Negroes on the street, they read highly inflammatory typewritten papers urging the Negroes to avenge the lynehing of Dixon and to apply the toreh to tho white business and residence districts in retaliation for the burning of the Negro gunrters on the levee. The police, however, do not fear any trouble from native Negroes.

It is the opinion of City Solicitor Tatum neither the eity nor county can be held responsible for the burning of the levee district by the mob. It is an admitted fact that while public sentiment is against the means employed to put the Negro out of the way, there is universni rejoicing that he is dead and it is realized that it will be extremely difficult to secure a jury that will assess more than nominal damages, if any nt ail. While a special grand jury will sit Monday to investigate the lynching, It is thought that it will be impossible to indict cither the leaders of the mob which did the lynching or the subsequent burn-

An immense throng of people were in and about St. Raphaei's church Thursday morning to attend the funeral services of Charles Collis, the rsurdered policeman. The entire police force and all the city officials were in attendance. The best order prevalled, and Father Buckley's sermon made no reference to the way in which Coiils met his death.

Ohio and Indiana lynchings make the traducers of Kentucky wince and squirm.

They are having much sport at the Department of State over an inelastic provision of law which requires that department to compile and issue in a separate volume the statutes enacted at each session of Congress. The special session of last November enacted only one measure, a joint resolution providing for the payment of mileage to the members. This is bound up, however, in a dignified little volume by itself with as much elaboration as if it were a collection of budget hills and general legislation. That simply is a straw that shows what the Republican administration will do when it makes up its mind to get busy on any old subject. It calls an extra session of the Congress and has it in session for a month without a single result. Not one thing of benefit to the people and at a cost to them of over two hundred thousand dollars!

THE DIFFERENCE.

The Hon. John Sharpe Williams, floor leader of the Democrats in the House of Representatives, in an interview on the lynching and riot at Springfield, O., emphasizes some points that are worth repeating:

"If the Springfield, O., lynching had occurred in the South it would have been indubitable proof of at least some degree of lawlessness. Having happened in Ohio, I suppose it merely argues a short justice attainted a little bit by playful arson. By the way, when the people of Mississippi or Texas take a short road to what they momentarily imagine to be justice, they never follow it up by punishing all darkies in sight and burning ishing all darkies in sight and burning retary, Maysville, Ky. out the negro parts of the town. When the crime is avenged, whether lawfully or unlawfully, they are satisfied with the destruction of the alleged criminal, and good and innocent darkies are not punished, nor are their homes destroyed on Death Darkens the Home of Mr. Thomas this account.

"There is also this startling difference. When a thing of that sort happers in Ohio we people down South do not indict the whole State nor even the whole community, much less the entire white Hays, died last night at 8 o'clock at the population; whereas, when a thing identical in character occurs anywhere down South, no matter how aggravated the near the fair grounds, of pneumonia. crim, even though it be accompanied by She had been ill only a few days. murder, the people of Ohio have a habit of indicting the entire white population of the entire South for being henighted and barbarous. We know the people of Obio are highly civilized, despite the appearance of this sort of thing now and and seven sisters.

ANOTHER CRACK AT THE CON-STITUTION.

They propose to authorize the Philippine government to execute a legislative guarantee of 4 per cent per annum on \$40,000,000 of bonds for railroad construction in those islands, and the bill wili be introduced this week. The bill will bar out foreign capital so as to give the capitalists of Wall Street the monopoly of the game. This administration has heen persistent in its efforts to get the good people of the country to believe that the Wall Street interests are dead against it, for political reasons and for political effect. Does this move look like it? The administration sells out to buy, before the advance. the Wall Street sharks and guarantees

EVENING BULLETIN. them immunity from loss and a sure return on the capital invested and in return they will get a har dsome campaign con ribution. This is the way the thing looks to a man who is on the inside of things at the national capital.

It has never occurred to these exploiters that this legislation will clearly be unconstitutional. But what in the name of all that stands for graft does the Republican party care about the Constitution? When the Constitution stands in the way of anything a Republican wants to do, he simply steps on it and mashes it into the mire. Until the voters of the country realize that they have it in their power to stop this sort of thing it will continue. When will they see the drift and get bnsy?

DEAR CUSTOMER:

Three years ago we anchored here; since then we have given Maysville a dry goods store different from any that had ever existed here. We were trained for an up-to-date dry goods business. We do not claim that all our methods are original for we get ideas from some of the best dry goods stores in the country. We doubt if there is a store in the world the size of ours that stands in with as many large stores as do we. That's to your as well as our advantage. A big store buys a large lot of underwear at a very close price. says to us that we can have what we want of it at cost price. Another store buys a million pounds of writing paper, says to us you can have ten pounds, one hundred pounds or whatever you want at just what it costs us. That's "standing in," do you get the idea? Saturday the C. and O. freight office telephoned us that one hundred cases, carpets, etc., (about 20,000 pounds) have arrived. We will open them this week. Good things, that's sure. Come every day, for every day will be opening day. Our Mr. A. L. Merz telegraphed that an offer he had made on a large lot of goods had been accepted. Prepare for a big sale—when the goods come you will hear from us. And now before closing we want to say one word about Globe Stamps. Don't for one minute think we give them to you because we are GENEROUS—no, it's a cold business proposition—we give them to make cash trade. Most houses we buy goods from say you can have so much time, but we will give you a per cent. off for cash. That's what we say-stamps for cash. Some stores say they won't give stamps —they would have to mark their goods higher. We are won-dering if they did. We don't. Sincerely yours, MERZ BROS. P. S.—Forgot to say that our Muslin Underwear Sale will continue one week.

THE NEW CENTRAL.

Handsome Improvements Made to Maysville's Popular Hotel.

Mesers. Fitzgerald, Daugherty and Sammons have just completed some handsome alterations and improvements to Maysvilie's popular hotel,-the New Central.

As stated some weeks 5go the hotel company has leased the three story brick building adjoining on the south and an arched doorway connecting the two buildings has since been put in. The saloon formerly in the rear of the hotel office has been removed to the first floor of the leased building where the patrons of the bar will find the most eiegantly furnished sample rooms in the city. The clerk's desk and office has been moved back, occupying the space formerly occupied by the saloon. This enlarges the hotel lobby and gives the office not only abundance of room but plenty light and every convenience. The second and third floors of the leased building have been fitted up as sleeping apartments, giving the hotel eight additional bed rooms.

The decorations throughout, including the dining room, are beautiful, a handsome design with pretty floral trimmings being used.

The improvements add greatly to the equipment and convenience of the hotel and wiil enable the company to better accommodate the large patronage the New Central enjoys.
